

Keyboards & pointing devices for military applications

# NSI – The keyboard & trackball specialist

NSI has a long experience within the market of industrial keyboards and trackballs. Since 1986 we have delivered reliable solutions for demanding applications in various industries. Whatever your requirements, whatever your application, we want to make sure our keyboard, trackball or other input device will provide you the highest level of control and accuracy.

Besides a large range of standard products, our dedicated team of development engineers enables us to deliver optimum custom products fulfilling your exact requirements. We regard close cooperation with our customers throughout the entire design and production process as the key point to a successful partnership and perfect solution.

Our reputation for quality and our strong focus on customer service have positioned us as a reliable and innovative supplier of input devices for the military and marine market.
