Medical Trackballs

- Widest range of medical trackballs in the world
 - 13mm – 75mm diameter, optical tracking
- Sealing up to IP68 for easy cleaning and disinfection (patented)
- Anti-Vibration (AV) Technology to overcome unwanted cursor movement as a result of shock and vibration (patented)
- Consistent and tightly controlled ball rolling force
- Fully manufactured in the UK since 1946
- Full customisation available (e.g ball color, ball rolling force ...)

Medical Touchpads

- Smooth and precise cursor control
- Wipe clean
- Solid state force sensing
- Full customisation available (e.g. overlay material, size, color ...)
- Full range of gestures available (e.g two finger pinch to zoom ...)

Medical Keyboards

- Sealing up to IP68 for easy cleaning and disinfection
- Low force and precise feedback key technology
- Full customisation available (e.g. function keys, logo ...)

Cursor Controls - The HMI Specialist

Cursor Controls is the **world's leading designer and manufacturer** of innovative human machine interface solutions and input devices. We specialize in providing high-end HMI solutions for a wide range of markets, including medical, marine, defence & aerospace, and industrial.

We have a **strong focus on innovation**, which has resulted in **numerous patents** being awarded. We are proud to have produced over 2 million devices in our own facility which houses our core capabilities – PCB assembly, electromechanical assembly and our design and development functions.

Our largest market is the **medical market**, with a broad range of devices specifically designed for this sector. Many of our medical HMI products incorporate the patented IP68 sealing, making cleaning and decontamination simple, while our anti-vibration technology ensures reliable cursor control in critical applications.

Cursor Controls have a solution for almost every HMI medical application through utilisation of leading edge and intuitive patented technology solutions and can offer literally thousands of configurations.

We are committed to providing the **highest quality products and services**.

MEDICAL KEYBOARDS

RKTE85 silicone rubber
with ergonomic trackball

KSTL105 short travel
with 50mm trackball

MEDICAL TRACKBALLS & TOUCHPADS

X50 standard series - optical

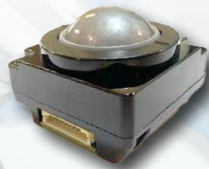

X50 skeletal series - optical

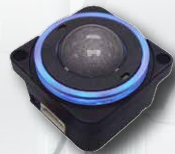

M50 series - optical

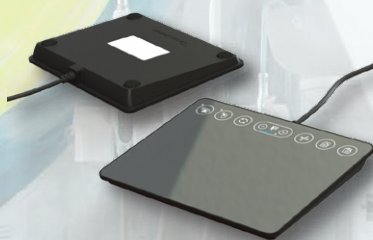

E38 series ergonomic - optical

O38 compact - optical

X25 compact - optical

TPD series - touchpads

M Track series

M-TRACK PRO & CUSTOM SOLUTIONS

- Hybrid touch-track technology
- Enhanced workflow efficiency
- High level of sealing
- Easy to clean/sterilise
- Modular design
- Haptic and audible feedback
- Custom ball colours
- Various backlighting options (RGB)
- Unrivalled Functionality
- Unique Ball Retention
- Fully Customisable

**M-Track Pro:
The Next Generation
of Trackball Technology**

Cursor Controls has the mechanical and electrical design capabilities to meet any customer requirements.
