NSI - The keyboard & trackball specialist

NSI has a **long experience** within the market of industrial keyboards and trackballs. Since 1988 we deliver reliable solutions for demanding applications in various industries including food, medical, IT, machinebuilding & automation.

Whatever your requirements, whatever your application, we want to make sure our keyboard, trackball or other input device will provide you **the highest level of control and accuracy**.

In addition to a **large range of standard products**, our **dedicated team** of development engineers is able to create optimum **custom products** fulfilling your exact requirements. At NSI we also offer a full service regarding **testing and certification**.

We regard **close cooperation** with our customers throughout the entire design and production process as the key point to a successful partnership and perfect solution. Furthermore we have a worldwide network of more than **30 authorised distributors**.

Our **reputation for quality** and our strong focus on **customer service** have positioned us as a **reliable and innovative supplier** of input devices in various markets.
